

Course unit title:	Introduction to Research Methods
Course unit code:	ENG103
Type of course unit:	Compulsory
Level of course unit:	Bachelor (1st Cycle)
Year of study:	2
Semester when the unit is	2
delivered:	
Number of ECTS credits	6
allocated :	
Name of lecturer(s):	Ms Eleftheria Atta
Learning outcomes of the	Define the basic steps to construct a formal research report
course unit:	Explain the basic concepts behind summary and analysis of critical
	works
	Examine concepts of research methodology
	Determine concepts of data collection methods
	Identify data analysis methods
	Synthesise a research proposal
Mode of delivery:	Face-to-face
Prerequisites:	None
Recommended optional	None
program components:	Tronc
Course contents:	This course aims to provide students with an understanding of research.
	More specifically, students will be introduced to a variety of approaches and techniques of research methods, data collection as well as data analysis. The course prepares students to critically read and understand secondary sources and research as well as design and carry out their
	own research projects.
Recommended	Textbook
and/or required reading:	Blaxter, L., c., Tight, M. (2010). <i>How to Research</i> . 4 th ed. Open University Press
	Recommended reading(s):
	Collins, J., & Hussey, R. (2003). <i>Business Research: A Practical Guide for Undergraduate and Postgraduate Students</i> . 2 nd ed. Palgrave MacMillan
Planned learning activities	Through lectures, class discussion and library work students read and
and teaching methods:	evaluate various articles enabling them to apply concepts of research to
9	their research proposals.
Assessment methods and	Class Participation 4%
criteria:	Oral Presentation 2%
	Midterm Examination 10%
	Research Proposal 14%
	Final Examination 70%
Language of instruction:	English
Work placement(s):	No
